

Because your kids
deserve a **TOP** education!

Established in 1879 Yarragon Primary School strives to offer an outstanding education to its children.

YPS is very much a community school where we see the school's central purpose is to provide students with a safe, happy, positive learning environment that values individual and group excellence in all facets of school life.

As a small school YPS strives to provide the breadth of programs of a large school combined with the individual care and community feel of a small school.
